Serial Number	Test Item	Description of Test	Final Pressure (Bar)
18403	7° slope Indicator, 350mm diameter	The items were placed in a hydrostatic pressure vessel and exposed to the following pressure cycle: Ramp up from 0 bar to 615 bar Hold at pressure for 30 minutes Ramp down from 615 bar to 0 bar No pressure drop was observed during testing, indicating no water ingress. The items were removed from the pressure vessel and visually inspected. External examination of the item revealed no effect of the hydrostatic testing.	615
